DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 1, 8, and 15, recite "a current generator circuit adapted to establish a modulation current..." The context in which the term "adapted to establish" is used renders the claim vague and indefinite (see MPEP 2106).

Independent claims 1, 8, 15, and 16 recite "the input stage being configured to include first and second differential pairs". The context in which the term "configured to include" is used renders the claim vague and indefinite (see MPEP 2106).

Independent claims 1, 8, 15, and 16 recite the phrases "...being implemented using MOS devices" and "...being implemented using bipolar devices". The phrase "being implemented" is vague and indefinite, and fails to particularly point out and distinctly claim the subject matter which Applicant regards as the invention.
